

Hellberg TuneUp Connect

Hearing protection with AM/FM radio and sound input

HELLBERG TuneUp Connect is a very comfortable hearing protector with professional performance. The ergonomic design and construction keeps an even pressure over head and ears, and allows easy size adjustments. A built-in high quality AM/FM radio with large adjustment knobs provide quick and easy tuning to your favorite radio station. The external sound input lets you connect an mp3 player, com-radio, cellular phone etc.

- **HEADBAND**
Headband construction is easy to adjust and provides a narrow fit that distributes pressure evenly over the head and ears.
- **ERGONOMICAL DESIGN**
Large, accessible controls that are easy to adjust even in work gloves.
- **SEPARATE COMPARTMENT FOR ELECTRONICS**
Protects circuit card and batteries from moisture, sweat and dust.
- **AM/FM RADIO**
Exceptional radio with excellent reception and HI-FI quality sound.
- **REPLACEABLE BATTERIES**
2 AA batteries give you 300 hours' use. Easy to replace through the outside of the cup.
- **SOUND INPUT**
For connection to CD, Mp3, com radio, cellular phone, etc.

Hellberg products provide Comfort, Flexibility and Safety!

FEATURES & BENEFITS

● ELECTRONIC PROTECTION SYSTEM EPS

Limits all sound through speakers to max 80 dB(A) from the AM/FM radio and auxiliary sound. This protects your hearing from impulse sound and loud signals according to EU directives.

● MANUAL SEARCH

A large tuner knob helps you to find your favorite stations.

● BATTERIES

Two easy to replace AA batteries give you 300 hours of usage.

● CUSHIONS

Soft, foam-filled rings with thin, pliable vinyl; these seal against the ear and are comfortable even with glasses. Highest scores in independent studies for comfort and minimal sweat and heat retention.
